### CITY GOVERNMENT.

THE OFFICERS ELECTED IN MAY PRO-CERD WITH THEIR DUTIES.

Meetings of the Two Branches of the Coun-A Disagreement.

In May, 1886, the City Council of Richmond passed into the hands of the Reformers. At the recent election the Democrats regained control and elected their members in five of the six wards and were victorious in every office to be filled by the people. All of these public servants, from Mayor down, were installed resterday, and the City Council having organized according to law vesterday evening proceeded to fill the public positions which the charter piaces in their control. The Democratic nominees were all successful. Thus the government of Richmond is again Democratic from centre to circumforence.

Common Council.

The first meeting of the new Common Council was held yesterday evening at 5 Clerk August rend a certificate from the clerk of the Hustings Court showing who were entitled to seats, after which he called the roll and all the members answered to

Mr. William H. Pleasants placed in nomination for temporary chairman Mr. Bodeker, and he was unanimously elected. Mr. Bodeker having taken the chair Mr. John M. Higgins nominated Mr. Thomas P. Campbell for president. The Clerk called the roll and Mr. Campbell was unanimously elected. Mr. Bodeker congratulated Mr. Campbell on his election.

THE NEW PRESIDENT.

Mr. Campbell said:

"Gentlemen of the Common Council of the City of Bickmond,—Words fall me when I attempt to express my appreciation of the high compliment you have just baid me in making me the presiding officer of this honorable body for the next two years; and in accepting the position I feel all the more honored when I remember the long line of illustrious predecessors, such as Starke, Meredith, Wynne, and a host of others, who have filled this came so ably, and have left behind them names that will live perpetually in the hearts of a grateful people.

behind them names that will live perpetually in the hearts of a grateful people. "In the discharge of the duties which this position imposes I have many misgivings as to my ability, but I wish to assure you that whatever I do shall be done from a sense of what I conceive to be my duty. I may erron doubt I shall—but with your kind cooperation and patient forbearance I hope at the expiration of the terralo merit the approval of a generous and prosperous people." An Old Physician Gene.

Dr. W. U. Morris, an old and well-known physician of this city, died yesterday. Dr. Morris was born in Harvard county, Md.; took the degree of M. D. at Washington Uni-versity, Baltimore, in 1848, and was engaged in the active practice of his profession in the city of Baltimore when the roll-call of the South was sounded. He did not bestate to leave home, kindred, and friends to link his fortune with the Stars and Bars. He served the Confederacy from its beginning to its end, and as president of the Conscript Board saw many of the scenes of the war. He had also charge of a hospital in Petersburg during its slege. During the session Alderman Taylor rose to a personal explanation, in which he stated

During the morning, it appears. Deane, who is a bold, daring fellow, went to a closet at the back part of the colored ward, and succeeded in wrenching one of the hinges off the door. This he used to cut into the wall with. Lewis had been let into the committees until the two branches have adopted Rules. This they have not vet done, and there is a disagreement between the two branches as to whether the Grounds and Buildings Committee should consist of five or seven members. If there is any real difficulty in the way no doubt it will be straightened out by called meetings.

It would seem to be a simple and good thing to adopt the rules as they now exist or lately existed, and thus set in motion the machinery of the City Council, and then leave it to future meetings to determine whether the membership of any committee should be increased.

The Council committees elect a great number of important offices, and wield a vast deal of power.

To the Officers and Members of the Fire and Fire-Alarm Departments:
The Board of Fire Commissioners having assumed control of the Fire and Fire-Alarm Departments, as provided by law, desires to congratulate the department upon its past efficiency and ideity to duty generally, and ask now at their hands a hearty cooperation as now at their hands a hearty cooperation for its future success. The department must be conducted on strict business principles, and while proper zeatous attention to duties will be rewarded, violations of its laws will be vigorously punished. To that end this board imperatively demands that you individually and collectively according yourself in its discipling and laws. for its future success. The department must be conducted on strict business principles, and while proper zealous attention to duties will be rewarded, violations of its laws will be vigorously punished. To that end this board imperatively demands that you individually and collectively so qualify yourself in its discipline and laws that when the exigency arrives you may intelligently understand your duties, being fully assured that the board will hold you to a strict accountability.

TRIAL TRIP OF A HORSE-CAR RUN BY
ELECTRICITY.

Special Arrangements Being Made to Afford Ample Facilities
To-Morrow.

The horse-car from the Main-street line which was taken to the Union Passenger. Company's sheds, corner of Twenty-ninth and P streets, several days ago to be fitted up with electrical appliances, as an experiment, was run out yesterday afternoon and made a very successful trial-trip. As the car was much smaller than those used on the Electric Line, it was provided with only one motor instead of two, as are used on the larger cars. When it started out, or when it came up the Franklin-street hill, there were thirty-five passengers aboard, and before the New reservoir was reached this number was angumented to eighty-one. Returning there were minety-two persons riding, most of them boys from thirteen to eighteen years old, but about differi or possibly twenty men of average weight. The trip was made without a hitch, and the test was a most satisfactory one. The boys kept up a continual noise along the entire route and drew the attention of persons living on the line or who happened to be on the street to the novel sight of a bob-tail car running by electricity.

It is understood that, for the near future at least, the cars belonging to the City railway will be fitted up like this one and run on the Main and Broad-Street lines. The man: F. Loth, hostler; Oswald Knight, Jublius V. Haake, W. V. Shaw, A. Haaz, J. D. Seabright, D. C. Ellett, A. P. Tyree, Louis T. Miller, J. H. Seawell, and J. S. Wooldridge, laddermen; one vacaney to be filled.

The board before adjourning appointed themselves a committee to instal the new officers and men, each member to attend to the engine-houses in the ward of his residence.

THE OLD FORCE.

The officers of the department when the change took place yesterday were as follows: mond should not be run by electricity by the first or middle of September.

- MORE ELECTRIC CARS. Four additional cars were received from New York yesterday for the Electric Line. These are some of the cars made for the Fulton Line, New York, and are just like the close cars now in use on the Electric read, except that they are fourteen feet in length, whereas the present ones are sixteen. They are painted the same color. These will be taken to the car-sheds on Church Hill at once and fitted up as quickly as possible, but as the motors, &c., are not yet here it will be a week or more before they will be ready for
